Detailed Note
on
BE YOUR BEST - LEADER (Training Program / Workshop)

This is a **Life Transforming Program** as it teaches every participant to succeed by taking complete charge of his life.

Our Life is dependent on the choices that we make and the decisions that we take. Our success is ultimately a function of the quality of choices that we make and the quality of decisions that we take in everyday life.

It is not easy to take qualitative decisions all the time. Life is complex and complete clarity is required to be able to negotiate it as per the constantly changing times.

This course will give 100% clarity on all the issues that may be plaguing individual minds, couples & families in varying stages of evolution.

Clarity brings confidence. With self confidence we can face all the challenges. In other words, confidence helps us in challenging the challenges.

Leadership is not merely a political concept. In 21st. Century it has assumed new dimensions and intonations. In fact, 21st. Century leadership is totally different than its 19th. or 20th. Century counterpart. In 21st. Century, particularly in the last few years, mind boggling changes have taken place in terms of social aspirations, technological advancements, the organizational structures and the tools to execute a project (both industrial project or software development project).

Old mindset, obsolete knowledge and old toolset will not work anymore. People are aware that the society around them has changed. But they have a very general idea about it which is precisely the reason why a large number of individuals remain confused as ever. For example a large number of management books available earlier have become obsolete. They have become a piece of literature and need to be discarded immediately. But there is a scant understanding in people which all management books and which all concepts and approaches to leadership will not work anymore.

This course will give you a specific knowledge about what is old and obsolete, hence to be discarded. This course will give you a specific knowledge of the specific changes that have taken place around us and how to adjust and align around that change to not only negotiate life successfully, but also how to fulfill your dreams, desires and aspirations without any threat of being shown a pink slip.

This course will make you realize your highest inner potential through small techniques and processes which will be carried out among and by the participants during this comprehensive course. The small techniques will first help you to unshackle yourself from life stopper behaviors and then move on to help you to start working at your highest and total capacity.

Having obtained clarity and developed a comprehensive perspective of life, every participant, irrespective of age, profession, creed and social status, will become more and more certain about the outcomes of the various decisions that he takes as well as the choices he makes in his personal and professional life.

Clarity removes uncertainty, brings in confidence and with it comes the ability to take charge of ones life. This course will not only enable the participants to take charge of their own lives but also steer it in the direction of their own choosing - towards their dreams, desires and passions - towards their ultimate life goals.

In this course you will realize that you are the co-creator of your destiny. After this realization you will also be trained in the techniques of how to create your own future.

The course is also unique in a very special way. While sharing every possible life concept, the trainer will not only tell you “WHAT” the concept is but also “HOW” to implement the same practically in your day to day life and achieve sustained success.

This course covers how to handle the emotional conflicts of the teenagers, the parents, the managers and so on. Parenting has undergone a sea change and has to be addressed with a fresh approach. Being efficient manager has been replaced by being an effective leader.

The course will teach you a unique method of how to lead a stress free and disease free life.

A unique and powerful technique of improving memory, enhancing concentration skills and how to remain focused is an important feature of this Training Program.

This course extensively trains the participants on developing and honing communication, presentation and public speaking skills. The participants will learn to articulate their thoughts impactfully and effectively.

Among other things this course will also cover issues such as how to handle your boss. The course will also cover how to develop deep and lasting relationships with peers, subordinates, friends, relatives and associates. It will also cover how to handle close and intimate relationships of one’s life.

This course will cover how to continue to remain employable in this ever changing world. It will also teach how to keep getting promoted to higher responsible positions.

This course will teach you on how building up a solid financial backbone is important in realizing your dreams and desires.

However, this is not a run of the mill Program on “Personality Development”.

This course trains the participants in clear distinction between personality orientation and character orientation. Personality orientation gives small and temporary successes. Sustained success comes only with a proper blend of personality & character orientation.

Above all, this course will train you in the art of “happiness” and in the art of developing “positive attitude”. These two things are considered foundational in achieving your ultimate success.

To sum up, following topics will be extensively covered during this Life Transforming Course:-

- ✓ **Developing Positive Attitude**
- ✓ **Memory, Focus & Concentration Skills**
- ✓ **Maintaining Healthy Relationships**
- ✓ **Stress-proofing Yourself**
- ✓ **Time Management**
- ✓ **Decision Making & Setting of Life Goals**
- ✓ **Communication Skills**
- ✓ **Presentation & Public Speaking Skills**
- ✓ **21st Century Leadership Skills**
- ✓ **Happiness vs. Pleasure - The simplest differentiator of human spirituality**
